SKILLS

- **Languages** : C++, Java, C, Python, Kotlin, SQL
- **Frameworks/Concepts**: Pandas, Matplot, Seaborn, Scikit-learn, DSA, OOPS, HTML, CSS
- **Tools/Platforms** : Excel , Power BI, DBMS, Git, Figma, Jupyter Notebooks, Google Colab
- **Soft Skills** : Problem-Solving, Time-Management, Teamwork, Communication

PROJECTS

Flappy Bird – 2D Game Development Project | Github Jun 2025 - Jul 2025

- Developed a fully functional Flappy Bird game using Java, showcasing core concepts of object-oriented programming and game physics.
- Implemented smooth gameplay mechanics including gravity simulation, collision detection, and dynamic obstacle generation.
- Designed engaging graphics, animations, and scoring logic to deliver an interactive and responsive gaming experience. Tech: Java, Swing/AWT.
- Designed a **scalable architecture** allowing easy extension of features such as levels, difficulty modes, and sound
- effects.
- Optimized **game loop and rendering performance** using efficient repainting and frame control techniques.

Kreeda AI – Sports Chatbot Assistant | Github Mar 2025 – Apr2025

- Engineered an AI-powered sports chatbot capable of answering domain-specific sports queries..
- Integrated real-time conversational features to deliver personalized sports insights, player statistics, and Match update.
- Enhanced user experience by crafting a modern, responsive, and intuitive chatbot interface. Tech: Python, Streamlit, Custom CSS, Open Router AI API, Requests, Logging, Streamlit Cloud.
- Formulated a Hybrid Architecture to resolve the Cold-Start Problem, validating Predictive Modeling performance through Precision@10 and Recall metrics.
- Optimized **response latency and scalability** for smooth real-time interactions when deployed on Streamlit Cloud.

The Store – Online Shopping Platform| Github Sep 2023 -Dec 2023

- Built a platform to streamline studio bookings and bridge communication between photographers and clients.
- Developed core features including appointment scheduling, client–photographer interaction, and studio workflow management
- Improved booking efficiency by providing a seamless interface that simplifies operations for both users and studio owners.
- Strengthened overall platform reliability by handling **edge cases and asynchronous operations** effectively.

TRAINING

Mastering JAVA for Application Development – Lovely Professional University | certificate Jul 2025 –Aug 2025

- Completed a comprehensive Java training program covering core concepts, OOP, multithreading, GUI development.
- Built hands-on projects including a Flappy Bird game, File Splitter-Merger, Quiz App, and Chatting Application using Swing, AWT, JDBC, and networking
- Strengthened practical development skills through structured assessments and real-world application-building exercises.

CERTIFICATION / CERTIFICATES

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM by Infosys | certificate Aug 2025
- Introduction to Hardware and Operating Systemsby Coursera | certificate Aug 2024
- The Bits and Bytes of Computer Networking by Coursera | certificate Nov 2024
- Responsive Web Design by freeCodeCamp | certificate Oct2023

EXTRACURRICULAR ACTIVITIES

Community Development with NGO – Karma Kranti Seva Foundation | certificate Jun2024

- Volunteered with Karma Kranti Seva Foundation, supporting community welfare and environmental awareness initiatives..

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology-Computer Science and Engineering; **CGPA: 5.63** Since April 2023
- **Mount Litera Zee School** Uttar Pradesh, India
  Intermediate; **Percentage: 62%** April 2022 - March 2023
- **Mount Litera Zee School** Uttar Pradesh, India
  Matriculation; **Percentage: 70%** April 2020 - March 2021
